Become LEED Accredited

The GBCI's LEED accreditation program has changed. In an effort to encourage continuous improvement and learning among LEED professionals, the LEED AP program has been revamped. A more multi-faceted and dynamic credentialing system has been created. Please visit <http://www.gbci.org>, if you would like more information.

For those of you who wish to pursue the new LEED Green Associate credential, FirstService is currently running a 10-week prep course; class recordings are available on www.ColliersUniversity.com. Email university@colliers.com for details.

"LEED Accredited Professional" and the related acronym, and the Legacy LEED AP logo are trademarks owned by the U.S. Green Building Council and are awarded to individuals under license by the Green Building Certification Institute.
